KITA and the exhibition teams of Coex are committed to investing in and supporting KITA members through trade-show participation in order to foster the Korean exhibition industry. Furthermore, KITA has its own on-line trade buyers database program and also promotes both export and import trade by hosting regular trade seminars and biz-matching programs.

K O I M A Korea Importers Association

The Korea Importers Association (KOIMA) was established in 1970 under the authorization of the Government-run Ministry of Knowledge Economy. KOIMA has played a crucial role in developing the country's economy by promoting trade. Korea obtains the large majority of raw materials for the production of export goods from abroad, and, as the only import-oriented organization in Korea, KOIMA has been responsible for promoting this vital trade through the introduction of overseas suppliers, arrangement of business matchmaking meetings, dispatch of purchasing missions abroad and more.
